BILDERBACK'S NURSERY - GRAY, GA.

CAMPISIS CHINENSIS (BIGNONIA GRANDIFLORA)

GIANT CHINESE TRUMPET VINE

GUARANTEED

THE GENUINE ARTICLE

Certainly one of the showiest vines that can be grown in this section. Can be seen a half mile away, attracts attention. Color is between Apricot and Light Orange, born in huge clusters. The individual flower opens up like a huge petunia (wide open), starts blooming about same time as Crape-Myrtle and lasts as long - around 100 days. As flowers fade they drop, always leaving plant looking fresh and nice. Never attracted by insects or diseases - will stand a low of around 5 degrees. If given no support will make a shrub. It is deciduous. Will grow in sod without cultivation. It defies customary methods of propagation.

The writer has spent several years working out a new technic of quantity production to secure them on their own roots. At this writing I believe we have the only stock in the U.S. on their own roots. There are two or three other nurseries in the U.S. offering grafted plants and this is a feat itself. The writer objected to this grafting for the reason the understock used is an undesirable plant, subject to suckering and could become a nuisance.

Our large stock has allowed us to offer these plants at a wholesale price, and we hope to continue these low prices from year to year now since we have accomplished what looked like an impossible thing - "quantity production on own roots." The usual retail price is \$1.00 each. This is the first year we have ever been able to offer in quantities and the first time at such low prices by any concern.

OUR PRICES: 1 yr # 1 roots - each 50¢ - Doz. \$5.00) all own roots.
1 yr # 2 roots - each 40¢ - Doz. \$4.00)

All guaranteed the genuine. There are imitations.

If possible, plant one at every fence post. It will make roses ashamed of themselves.

- - - - -

GRAFTED GRAPES - 40 varieties - \$1.00 each;

FIGS - 24 varieties - 50¢ each.

Limited space makes it impossible to list here varieties available. If interested, will be glad to furnish list of what we have at time.
